# Development Of Callan Park Is Discussed

## SUPERVISOR FITZGERALD TELLS GROUP CAPITAL OUTLAY PLAN; BUILDERS TO 'PAY OWN WAY'

**Supervisor James V. Fitzgerald Tuesday night outlined a detailed plan before officials from four Peninsula cities and a co-developer from the Callan firm as to how the county expected Callan Park to grow as a first-class development.**

**Fitzgerald met in Redwood City with city officials from Daly City, San Bruno, South San Francisco and Pacifica—all four cities will border the controversial housing development.**

Representing the Callan interests was Bert Williams, a co-partner, and president of Forest Homes, a Callan affiliate. Mayor Robert B. St. Clair, and councilmen Joe Verducci and Micheal DeBernardi of Daly City were present, along with Mayor Andrew Rocca and Councilman Emilio DeCortesi of South San Francisco; Mayor Don Risso of San Bruno, and City Manager Karl Baldwin of Pacifica.

Those "spectators" included Thomas Noonan, representing the St. Francis Heights Improvement Assn., Fred Walker of Daly City, and James Claar, chairman of the City Taxpayers' Assn. of South San Francisco.

Fitzgerald proposed that the Callans create a fund which the county would collect at the time building permits were issued at a rate of 1½ per cent of each building's cost which would be used for capital outlay.

(For example: On a $15,000 home—price of lot not included—a fee of $225 would be collected when the building permit was issued for it, and would be applied to fees on other homes toward the acquisition of sites for a library, fire stations, recreation sites, and capital improvements.

Fitzgerald said after a sufficient amount is collected, the county planning commission will select the various sites, and purchase them when there is sufficient money in the fund. Purchase by the county will be made at an agreed cost with the Callans, which will be their original cost plus 10 per cent.

Fitzgerald remarked to Williams that the county, under no condition, could be expected to put out money for capital out-

## Sewage Hookup Contract Draft

Directors of the North San Mateo County Sanitation District Monday unanimously approved and accepted a revised draft of a contract between the district and owners of Callan Park for providing the latter with sewage services.

The district's attorney, James T. Morton, was instructed to prepare the final form of the contract for signing. Morton is slated to present the contract for signing at next Monday's meeting.

Morton was also instructed to prepare a proposed agreement between the City and County of San Francisco and the district covering conveyance, treatment and disposal of sewage for Panorama Heights, proposed housing development, to be located in the Crocker Estates, east of here.

Under the proposed agreement, the district agrees to pay San Francisco $7 annually for each home within a specified area.

R. L. Ariani, San Francisco attorney, appeared before the board and requested the district abandon a portion of Kel-

Following another public hearing, they approved a deed of easement to the city for an underground water well site on the east play field of Benjamin Franklin School site.

**More than 150 military groups, drum and bugle corps, drill teams, floats, equestrian units and fraternal, civic and social organizations are expected to join the line of march.**

City Councilman Micheal De Bernardi, parade chairman, said invitations have been extended to organizations throughout Northern California and that early response indicates widespread interest in the two-hour event.

Entry blanks for the Golden Jubilee Parade may be picked up at the Recreation Department offices in the War Memorial Civic Center or may be obtained by writing the Golden Anniversary Committee, 144 Hillside blvd., Daly City.

De Bernardi pointed out that entry blanks must be completed and returned by September 1. Participating units will be notified of the time and place of assembly by September 15.

## High School Dist. Budget For Year Is Up $400,000

The 1961-62 budget for the Jefferson Union High School District will total approximately $3,700,000, a rise of nearly $400,000 over the present one, according to Dist. Supt. Edward Morgan.

The 1960-61 budget—the one presently in effect—totals $3,219,000. Both budgets are based on a $1.35 per $100 assessed valuation maximum limit.

Trustees met in special session Monday night to go through the proposed budget, and studied each individual item. Morgan reports that the preliminary budget is two-thirds completed, and that he expects it to be finished and adopted at the June 26 meeting.

Following this, the budget will be sent to the County Superintendent's office, where he will study and approve it, and send it back by July 15.

Morgan said that the budget will be adopted, following a public hearing on August 7.

Morgan explained that the jump in this year's budget total is due primarily to teacher's salary increments and an expected additional enrollment of 600 students to the district. There are at present 3,600 students in the district.

## FDR School Site Puzzles Planners; More Info Wanted

The Pacifica Planning Commission wants more information on the proposed Franklin D. Roosevelt School from the Jefferson Elementary School District before it approves any maps or site.

This was the consensus of commissioners Monday night after a map and description of the proposed school site was presented to them. The site is located at Longview Drive and Belcrest Avenue.

This school will serve the area west of Skyline in Daly City and that portion of Pacifica within the Jefferson School

An organizational meeting of the working committee will be held tonight at 7 p.m. in the banquet room of the Westlake Bowl.

## Rivera Overpass Within 6 Months

A concrete-constructed over pass extending across Lake Merced boulevard near Glenwood avenue to allow school children a safe crossing to the Fernando Rivera School and Westlake Park could be a reality within six months, providing there are no complications in plans and steps of procedure.

This is what Dist. Supt. Richard Foster Monday night told trustees of the Jefferson Elementary School District and members of the audience, many of them parents with children attending Fernando Rivera who make frequent use of the playground there.

Estimated cost of such a piece of construction has been set by Architect Mario J. Ciampi at between $30,000 and $35,000.

Foster reported that about $3,400 of the cost might possibly come from the State Allocations Board, upon recommendation from the State Department of Finance, an amount which had previously been earmarked for a signal light at the site; the board prefers an overpass there, however.

He also reported that he has been engaging in talks with city officials, who have offered to contribute $15,000 for their share of capital outlay, which can be used toward defraying construction costs—this would give the district some $18,000 toward the total construction price.

Foster said that if the "necessary" steps were started at that meeting, and if everything went well and kept on schedule the overpass could be built and ready for use within six months. He made no promises, however.

Parents in the audience registered concern about getting children safely across the busy street, especially during the summer months when Westlake Park playground will be in use so much. The school has joint use of the playground.

Foster remarked that the district does not allow children to cross the boulevard at any time during the school year because of the traffic, and that children are "bussed in and bussed out," an operation which costs the district $5,000 a year, and a cost which the district does not get back. Foster said he felt the overpass was very necessary.

## JESD TRUSTEES STUDY BUDGETS FOR ADOPTION

Two possible preliminary budgets for the 1961-62 school year were being considered by the Jefferson Elementary School District Monday night.

Either budget—regardless of which one is adopted—means a $300,000 to $500,000 increase, and a possible hike from the present tax rate of $2.37 per $100 of assessed valuation to a figure between that and the $2.50 per $100 legal maximum.

The budget based on a $2.37 tax rate totals $3,842,189. Another "study" budget, based on the supposition there was a $2.50 tax rate, totals $3,928,437. The present budget totals $3,481,072.

Dist. Supt. Richard Foster explained that the hike is due to an additional $100,000 in salaries for classified and certificated personnel and necessary capital outlay.

The district has come up with a third budget which totals $4,238,505, and provides for maximum capital outlays for all the schools, but it is derived from a $3.04 tax rate, which is above the $2.50 per $100 legal limit set by the voters three years ago.

The other two "workable" budgets, which are within the tax rate limit, do not provide for maximum capital outlay work, therefore the district is forced to consider only work which must be done on schools holding priority.

By law, the district must adopt a preliminary budget by July 1, must publish a final budget between then and August 1, and betwen August 1 and August 7 must hold a public hearing and adopt it.

## Overpass

lay, and that Callan Park is "going to have to pay its own way."

Williams replied that he saw "no major problem" for the Callans in meeting Fitzgerald's plan.

Problems that Fitzgerald was deeply concerned with regarding the development of Callan Park was whether or not the tract would become a part of the Colma Drainage District, that adequate fire protection was planned for, arrangement and ample supply of parks and playgrounds, and extension of Sharp Park Road from Pacifica to Callan Park.

These are also problems that have concerned at least one of the four represented at the meeting, at one time or another.

Noonan expressed concern about Callan Park coming into the North San Mateo County Sanitation District, and was told by Verducci, who is also a director of the district, that any increase in services by the district would be paid for by the Callan Park Water District and "no one else."

Fitzgerald said the atmosphere of the meeting was cordial, and that the talks were "very fruitful."

"The developers now know what is expected of them, and what to do," he added.

## 1,025 Persons Given Legion Polio Shots; More Set For July 1

Some 1,025 persons turned out Saturday at the Benjamin Franklin School for their polio shots, with more than 100 persons being turned away because the physician and three nurses ran out of serum due to the unexpected turnout.

The polio shot program was sponsored by the American Legion, Broadmoor Post 824.

Because so many persons had to be turned away, and because of the importance of the program, the post will be giving shots again on Saturday, July 1 from 9 a.m. to 12 noon and from 1 p.m. to 4 p.m., according to Dick Napoletano, post commander and chairman of the program.

Of particular concern to the commissioners was the actual size of the site which was not given, plus other questions. They also were interested in hearing from their planning consultant, Fred Barber of San Carlos, on the matter.

The commission asked that Dr. David Shapiro, assistant superintendent for the Jefferson Elementary School, be contacted and asked to be present at their next meeting on June 19 for further discussions on the school site.

The commission held over until their next meeting approval of the tentative map calling for the construction of five homes. This tract wil be located off Skyline Blvd. near Craigmont Court.

## Jeff Hi Puts Out Literary Magazine

Students of Jefferson High School this week published and placed on sale copies of their third annual "Touchstone," a 39-page literary magazine featuring poems, drawings and photography—all of which was done by various members of the student body.

Stories were submitted by students through Kenneth Brown, an English instructor. Adviser for art work was Ray Lorenzato. Gil Tobin was photography adviser.

The graphic cover design was done by Linda Mayer, a student; and Joe Bollentini, a student, was staff photographer.

Although it was the third year for the literary publication, it did establish a "first." This was the first year the publication was printed and bound up in booklet form. In previous years it was merely mimeographed and stapled together.

The magazines are on sale now, and can be purchased by students at the main office, for 50 cents. Proceeds go to the Associated Student Body treasury.

The board accepted a position and salary survey report from Philip Brown, assistant city manager and personnel director, which said there was a reasonable correlation in salaries and positions between district and city employees.

# It's News To Vets

Q.—I had active service from January 1, 1920, to March 12, 1922. I hold an honorable discharge. Can I consider myself a veteran?

A.—Yes, you are a veteran by virtue of your military service. However, you are not a veteran of a "war period." World War I eligibility for benefits is considered as starting April 6, 1917, and ending on November 11, 1918, except for those veterans who served with the United States Military Forces in Russia, in which case the war period starts April 6, 1917, and ends April 1, 1920.

Q.—My World War II veteran husband deserted me and the children through no fault of mine. He died recently. Am I eligible for pension?

A.—You are a veteran's widow despite desertion and are eligible for pension if you can qualify under the income and estate limitations.

Q.—My father, a World War II veteran, and my mother never actually married. After her death his mother brought me up. Now he has died. My birth certificate shows his name as my father. He always supported me. I am now going to school and am not married. Am I entitled to pension until I am of age?

A.—Yes. Make application immediately with your nearest VA Office.

# Salvation Army Tells Story Of Runaway Youth

Mrs. Lyal Ingersoll, Welfare Secretary for The Salvation Army Service Unit of Daly City reported the following story.

Jean lived in a Peninsula town . . . . Her mother was dead, and her father managed to make some sort of an income from a small main street cafe . . . . Now she didn't quite know where to go or what to do, though she knew she had to do something soon.

Up until now no one seemed to have guessed. But she was sure that another month would give her secret away . . . . Should she stay at home, or should she run away? She knew one thing, she wasn't going to get Bob involved. He still had to finish high school, and he had problems at home, too.

Then, she thought of The Salvation Army. Maybe they could give her an idea of what to do.

One month later, Jean was a patient at the Booth Memorial Hospital in Oakland, one of 1,000 girls who spend anywhere from four month to six weeks at Salvation Army hospitals for unmarried mothers in California during the year. She was attending high school classes at the hospital, run by the local public schools, and making better grades than she ever had before.

Last week she made her final decision to have her baby, after it was born, placed in an adoption home. She felt she could now finish high school, and pursue a career in nursing.

The total cost of Jean's care was underwritten by The Salvation Army through its statewide service fund, by federated funds and by individual hospital contributors.

Under The Salvation Army statewide services program, local people are aided by local dollars, even though The Salvation Army facility may be located in Oakland, San Francisco, or Los Angeles.

Last year, The Salvation Army aided needy Californians over three and one-half million times. Cost of the 66 Corps, 70 service facilities and centers, and 350 Service Extension Units throughout the state totaled more than $9,400,00 in California in 1960.

## Vista Mar Pupils Hold Experiments

Culminating the year's work, many teachers at Vista Mar have correlated units of work with scientific experiments.

Miss Patricia Whitfield's sixth grade is obtaining knowledge about sound and communication. To show that South America and Canada are inaccessable without communication, some of the students are building telegraphs out of dry cell batteries and wire. Utilizing the telegraphs, they are sending messages to each other. Telephone receivers and transmitters have also been constructed at home as well as at school.

Miss Linda Zelingman's first grade class have grasped a new word, "evaporation," in the study of air. The children have observed that all living things, plants and animals need air by watching the goldfish, turtles, salamanders, tadpoles and frogs that have visited the classroom.

## Mr. Jonas' Class Visits Paper Mill

Mr. William Jonas' sixth grade class from Thomas Edison School recently visited the Crown-Zellerbach paper mill at Antioch, California.

The children witnessed the entire process from pulp to finished paper on one of California's largest paper-making machines; the Crown-Zellerbach machine is longer than a city block.

In addition to this, the children followed the process of making paper products from the paper they had just seen made. This paper mill tour was part of the culmination of a unit of study concerning Canada and its wood pulp industry.

## Orphan With Parent Can Get Help

An "orphan" may have one parent alive and still be eligible for educational assistance under the War Orphans Education program administered by the Veterans Administration.

The War Orphans Education Program was established by Congress to give assistance to those children whose veteran-parent's death was the result of disease or injury incurred or aggravated in the line of dufy in active service.

The death of the veteran-parent from this cause, whether it be father or mother, makes the children "orphans" under the meaning of this law, even though the other parent remains alive.

## Schemes Cheat SM Citizens, Merchants

Solicitors are appearing in San Mateo County supposedly delivering "merchandise which the boss has ordered" as a dodge to cheat local merchants, reports the Better Business Bureau of San Mateo County.

The usual method, the bureau relates, is to select a firm or place of business in which the owner is absent, contact an employee and state that the "boss" wanted the merchandise dropped off and payment picked up.

Gasoline stations often are targets for the dodge.

Another scheme affirmed by the bureau is the aluminum siding installation "model home" technique, in which high-pressure sales talk, fictitious prices, attractive bonus offers and kickbacks are generally used by unethical firms.

San Mateo County's Better Business Bureau urges residents anticipating home improvement work to contact them to determine reliability of firms or individuals with whom they anticipate doing business.

# TV and Radio

By MONA BAKER

An impressive and exciting milestone in the field of international telecasting is the announcement by KQED and KPIX that they will jointly present the first in a series of twelve INTERTEL documentaries. The premiere of the first program "The Quiet War" will be Wednesday, June 7 at 9 p.m. over KPIX and will be re-shown June 13 KQED 7:30 p.m.

Intertel stands for the first international production agency made up of five television networks (Westinghouse Broadcasing Co., National Educational Television and Radio Center, Canadian Broadcasting Corporation, Australian Broadcasting Commission and Britain's Associated Rediffusion Ltd.) who have pooled ther resources for the production of the twelve one-hour documentaries.

Each program in the series is produced for showing in all Intertel nations as well as possibly in other non-English speaking countries by dubbing in voice translations in other languages.

The project is an unique cooperative effort on the part of commercial and educational television. Television programs carry a tremendous impact on people around the world, and with worldwide television growing at a more rapid rate than in the U. S. the need for quality programming is quite evident. Referring to the new series KQED General Manager James Day and KPIX General Manager Louis S. Simon commented "We feel this double exposure in the Bay Area will stimulate a great deal of interest in this worthwhile international television production agency dedicated to the creation of programs of substance and meaning."

Scheduled for fall viewing over the CBS network is the first program in their new "College of the Air" series with a course titled "The New Biology." The program will coincide with the academic year beginning in September.

# TRIXIE BEESON HAD FIRST DC CLEANERS

Way back in 1923, when Daly City was a mere pup, the first and herefore original Daly City Cleaners was started.

It was down on the hill, across from the present Bank of America, that Thomas Jefferson Beeson and wife Trixie opened the cleaning establishment.

As Trixie, now 60, explains, "we were one of three shacks on the corner and our place eventually became the Bank of America before it moved across the street.

"We were show people. Both my husband and I played trumpet. Every weekend we'd give a show at old Ryan's Hall on Knowles avenue and sold tickets in the cleaning shop.

"They used to stand for blocks and go up the old rickety steps to the Hall," she affirmed.

For 10 years Thomas Jefferson was president of the Daly City Band, Trixie related, and after he passed away she stepped into his shoes for another 10 years as president of the band.

It seems Trixie's first marriage was to George Whitting, composer of "My Blue Heaven," at the early age of 14. She married Thomas Beeson when she was 17.

"I just didn't know what it was like to be single until recently," she speculated.

You'd think Trixie'd learn by now, but she still "works banquets," does the hulla, and participates with the San Francisco Theatrical Club.

She's about the only one around who still does the "Gay Ninity Gal," and she'll be appearing in the 50th Anniversary Parade and other festivities this coming October.

Trixie lives at 472 Irvington street, Daly City.

GOOD OLD DAYS in Daly City are recalled with the coming 50th Anniversary in October. Trixie Beeson and her husband, Thomas Jefferson Beeson, opened the original DC Cleaners in 1923 — (above, Trixie and her sister posing with her cat). At right is Trixie in one of her many theatrical costumes.

# 'Touchstone' Artistic Effort; 'Ballad of Soldier' Critique

By LARRY RUIZ

"It is said that poetry is the natural language of lovers. To be more inclusive one might say that poetry is also the language of seers. . . ."

So begins an introduction by Kenneth Brown in the first edition of "Touchstone," an art and poetry booklet produced by the students at Jefferson Union High School this semester.

The entire production is well-conceived, brought to physical production satisfactorily, and establishes a high degree of achievement by numerous students—or artist-poets. Indeed, the quality of freshness—mixed with some degree of literary and artistic taste—and lack of concern for other, often unfortunate, professionalism as in adult poetry, is truly enjoyable and enlightening.

Nature as in Romanticism, curiosity toward impressions of life (immagery), and innocence often in wordage and insight underly most of the careful and sensitive rhythms.

Of the visual arts—paintings, drawings, photographs—a John Peterson photograph is quite outstanding: a statue lies half exposed on its back among loose weeds.

"Touchstone" is a significant accomplishment for these aspiring poet-artists and gives one a refreshing view of "the new generation."

* * *

Much has been said, and much left unsaid, on Russia's S.F. Festival-winning "Ballad of a Soldier," currently playing at the Balboa Theatre.

There is no doubt the film is an "art" film of some considerable merit. However, one should not judge quality production techniques, direction, and acting with other, socio-cultural implications.

"Ballad" has certain strong propoganda traits which greatly effect the entire production, and particularly the role of the young hero-soldier. The American-European hero always is an individual, strong in moral character—and a bit stronger in physical capability.

Russia's new heroic figure is a youth motivated by strong social and nationalistic ties—deep and sentimental love of country, devotion to mother, disgust for unfaithful women whose husbands are at the "front," humble before authority, and a naive and innocent doer of good deeds.

Scenes of the vast Russian landscape, emphasis on tribulation, devotion to duty, and simple, human drama of young love are themes which make the picture appealing.

Notice, though, that Communism and fighting cause are never mentioned. Notice that authorities are feared by all, yet they are portrayed as strong, understanding, and just!

It may well be that "Ballad of a Soldier" gives us an opportunity to observe methods which the Communist government in Russia has used to strengthen national unity against the evil (you and I) which would conquer and enslave the Russian people.

Devotion to country—Nationalism—has inspired many young men to go to war in this century because some absolute authority or nebulous "motherland" immage so demanded.

Perhaps "Ballad" with its wonderful innocence and simple beauty holds a much less moral good for beauties which exist in our country.

I would like to see the love-of-man as theme of any picture produced either here or in Russia.

Is Life Insurance a good investment?

It depends on what you want from an investment. But if you are like most men, you will need an investment that will do these 4 things—create an immediate estate for your family in the event of your early death, give you an adequate income if you are disabled, provide a lifetime source of retirement income, *plus* liquid funds for emergencies. From this standpoint Life Insurance ranks second to none. A permanent Life Insurance contract with a Disability Income benefit, is the only investment that can guarantee this combination. Even in periods of severe economic stress, Life Insurance has a unique record of dependability.

For more information on what an investment in Life Insurance can do for you, just call the Man from Manufacturers. You'll find he has an interesting story to tell.

## CATHOLIC SOCIAL SERVICE SEEKS FOSTER PARENTS

Catholic Social Service, a Crusade Community Agency, is in need of foster homes for children, who for various reasons need to be separated from their own families for a time.

Many boys and girls, especially among the pre-adolescents and adolescents, are waiting for that special home, where loving and understanding foster parents can help them solve their sometimes serious problems and lead them to their true purpose in life.

Foster parenthood is a vocation requiring skills and as such has special rewards for those who undertake it. There is ten year old Joe Jones, who is living alone with his father since his mother's death. The father, because of his grief and the problems of raising a child without help, has sporadically taken to drinking. This has left little Joe too long on his own resources.

The father realizes that Joe needs a real home for a few years with day to day love and care and is willing to have him placed in a foster home. Would you like to play a part with Catholic Social Service in helping Joe and his dad?

Catholic Social Service pays for room and board and is responsible for clothing and medical and dental care of foster children.

Those interested in learning more about foster parenthood, may attend one of the Wednesday evening meetings at the Catholic Social Service Office at 329 Primrose Road, Burlingame. Please call DI 4-0051 to inquire as to date and time of the next meeting. These meetings are for couples only.

## Brownie Troop 587 Holds Lunch Party

Second grade Girl Scout Brownie Troop 587, held a mother-daughter luncheon party recently, at the home of troop leader, Mrs. Larry Burn.

A short program consisted of a recitation on a foreign country of each Brownie. Each of the eleven Brownies spoke on the country they had selected, and earned the Brownie World Association pin.

After the program, the little Brownies held a luncheon for their mothers. They had done some of the cooking themselves.

The surprise of the afternoon was a hat fashion show which consisted of pretty bonnets fashioned from scraps of material and odds and ends which the Girl Scouts had made with the help of their mothers. The mothers were asked to model the hats, creating an amusing situation.

Mrs. Wm. Sowl is co-leader to Mrs. Burn.

## GORGEOUS IS WORD USED FOR GERBERAS

Gorgeous is the word for Gerberas. And few who see them will disagree. In color, flower form and carriage, they are things of beauty seldom rivalled by other flowers that grow around them.

Gerberas—if you need further enlightenment—are those luscious Transvaal Daisies which stand out even among the most outstanding flowers at any spring garden show. Their formal, daisy-like blooms are of rich pastel shades and borne on tall wiry stems graceful to see. They are radiant with a special radiance that positively demands attention.

In growing these tender beauties, it is absolutely essential to provide proper drainage. The crown of the plant should never be set below the surface, nor below the line of soil in the nursery container. To bury the crown is to encourage an early end to Gerbera growing.

For this reason, Gerberas are ideally grown in raised beds—a practice that not only insures drainage, but shows off the blooms to good advantage. And watering, while important to encourage lush blooms, should not come from overhead sprinkling. Irrigate and let the surface dry out before irrigating again.

As for soil, Gerberas are undemanding. Any average garden loam will do. Give them sun in coastal gardens and part shade in the warm interior. If you plant them now, you'll be picking the blooms right through summer and well into fall.

## DC Cub Pack 244 Renews Its Charter

Cub Pack 244 renewed its charter during a recent meeting, and visitor Fred Goodell of the Lions Club pledged more participation by the Lions in pack activities next fall.

The Annual Pinewood Derby was held recently by the cub pack, and trophies donated by VanWormen and Rodrigues Jewelers of San Francisco were presented to first place winner Tino Regino and second place winner Alan Curtis.

Jungle hammocks were presented to Regino, Darrell Reed, Richard Young, Steve Jackson, John Volkman and Curtis. The hammocks were awarded for selling $15 worth of tickets for the Scout-O-Rama.

## County Gives Polio Shot Dates

The San Mateo County Health Department and the San Mateo County Medical Society urge all individuals who have not been immunized against poliomyelitis to arrange to do so before the height of the polio season.

Those who have been immunized but have not had a booster in two or more years should by all means have a booster.

They strongly urge that children, teen-agers and young adults particularly be immunized as most cases of poliomyelitis occur in these age brackets. For those who feel unable to have this done by their family doctor, the County Health Department is providing clinics as follows:

June 12—Health Center, 225 37th avenue, San Mateo, 1:30 to 4:30 p.m.

June 19—Health Center, 1024 Mission road, South San Francisco—1:30 to 4:30 p.m.

June 26—Health Center, 500 Arguello street, Redwood City —1:30 to 4:30 p.m.

## New Surgical Plant Opens In So. S.F.

The Western Surgical Supply Company, largest surgical and laboratory supply dealer on the West Coast, will open its modern, new Northern California distribution center in Utah Construction & Mining Company's South San Francisco Industrial Park this Friday.

The new $300,000 center at 320 Cory Way, South San Francisco, will replace outmoded facilities being vacated at 544 Mission street, San Francisco.

It will house a sales, warehousing and distribution operation that will serve customers from Porterville north to the Oregon border.

The 25,000 square foot building was designed by Simpson, Stratta & Associates San Francisco architects and engineers, and was constructed for Utah Construction & Mining Company by Johnson and Mape Construction Company of Menlo Park.

Dean Schneider, president of Western Surgical Supply Company, explained that with the relocation, full-scale warehousing operations at Sacramento and Fresno will be discontinued in favor of a centralized distribution system.

"This new distribution system . . . and the immediate access it offers to truck, rail, water and air transportation will make it possible for us to provide faster and more efficient service," Schneider said.

## Gardener's Checklist

By the California Association of Nurserymen

1. It isn't necessary to thin peaches, but if you're willing to sacrifice quantity for better quality fruit, take a tip from commercial growers and thin peaches to leave only one fruit every five or six inches along the branch.

2. Warm weather vegetables such as tomatoes and peppers can still be set out as transplants. Beans, beets, squash and many other vegetable seeds can be planted.

3. Stake chrysanthemums, and delphiniums. Be sure that dahlias are kept tied to their stakes as they grow.

4. Feed lawns lightly once a month. Water them thoroughly at least once a week during summer months.

5. Lift daffodils as the tops dry off or merely remove the tops and let them be for another year if the clumps aren't overcrowded.

## NEVER TOO LATE; PLANT FUCHSIAS

Fuchsias have been blooming for several weeks in parts of California, and you can rest assured they will bloom for several more. We get color from these prolific shrubs until the days begin to shorten and nights cool off sometime late in fall.

This should remind you that it's never too late to plant Fuchsias — at least not now during these days of spring nor in the early days of summer. Young plants almost ready to bloom and established plants already showering color can be seen at any nursery.

So numerous are the Fuchsia varieties and so varied their distribution that we shun naming names. However, you can find a variety to fit almost any situation as there are tall erect, low spreading, low compact, trailing, and many other types. The California Association of Nurserymen suggests that you talk with your neighborhood C.A.N. member to get a rundown on the best varieties for your own garden.

Fuchsias thrive in the acid soil, and the filtered shade. Neither too dense shade nor too much sun is desirable. Sun resistance depends on how far you garden from the coastal fog belt. A Fuchsia might survive full sun in some parts of the state, but curl up in the same exposure in others. Your local C.A.N. nurseryman can best advise you.

# DC'S BIGNOTTI TRIUMPHS AS FOYT WINS '500' RACE

When A. J. Foyt won the 500-mile Indianapolis Memorial Day auto race, he brought to Daly City immense pride and prestige.

For the auto that brought him over the finish line climaxes 25 to 30 years of racing experience and automotive engineering of former Daly City resident and merchant George Bignotti.

It was in the early 1930's that the Bignotti brothers—Al and George—developed their knowledge and interest in racing cars.

Elder brother Al "fooled around with race cars, and it was through Al I met George," explained Charles Tabucchi, mechanic and builder of three Indianapolis racers with George Bignotti.

"George went into building cars in a big way. He built all kinds—midgets, and 'big cars.' Freddy Agabashian was one driver for George. He drove the 1957 cars," continued Tabucchi.

Through the years Tabucchi and George worked on numerous cars, and then went to the Indianapolis Speedway for racing's biggest show.

"The 500 is the utopia of racing," explained Tabucchi to the WESTLAKE TIMES.

"It demands the accumulation of years of experience and knowledge, and a great skill. You also need Lady Luck. We didn't have her, until A. J. Foyt won this year.

"I was with George the first 'Indy' race in 1956, and also in '57 and '58 . . . when we built the Monza. He and I did 99 per cent of the work on the car.

"This year George had Lady Luck, and a great car, and a wonderful driver. That car did 147 miles an hour during its last 50 laps; a tremendous effort," Tabucchi considered.

"It also takes a good pit crew," he reflected.

"They had Bob Bowes, George's co-owner, as mechanic. Bowes began as a manufacturer of tire patches years ago. Now they (the Bob Bowes Seal-Fast Company) make all kinds of parts for cars and work every year in the big race," the Daly City resident and auto mechanic-builder related.

"We were third at Indianapolis in '58, and George came in sixth last year. Also in 1960 Foyt won the national racing title by winning four races with a car built by George.

"This year's 500-miler has a Meyer-Drake engine and Floyd Trevis built the frame in the east. George had someone in Los Angeles build the skin (body) and he assembled the car," Bignotti summarized.

In this year's pit crew were A. J. Foyt's father and Frank Catania, former Daly City man and past owner of the Daly City Auto Wreckers, and currently owner of a golf cart manufacturing company in Los Vegas.

George Bignotti and wife, Carole, reside at 2885 Hillside drive, Burlingame. Brother John Bignotti, currently at Indianapolis, resides at 21 Concord avenue, San Francisco.

Charles Tabucci lives at 479 Woodrow street, Daly City.

## DC's Ricci Last of Cal's 4-Year Letter-Winners?

Don Ricci, 25-year-old boxing ace for the California Golden Bears, received some unusual honors and takes a curious place in U. of C. athletic history.

It appears a near certainty that the Daly City-grown ring champion will become the last in a line of four-year varsity letter-winners to graduate from the East Bay campus.

This curious and honored distinction results from a World War II ruling by the National Collegiate Athletic Association, which allowed freshmen to compete in college varsity competition so that college teams could have enough young men to sustain athletic programs.

At the conclusion of the war, the rule remained in effect, allowing college teams to become strengthened once again. In 1950 the rule was dropped due to greater competition and increased academic requirements.

The rule was not retracted for boxing until a few years later, and the last year the freshmen-eligibility rule was in effect (1955) a young man named Ricci was good enough to win a varsity block letter in boxing at Cal.

He went into the Marine Corps for two years, saving his eligibility, and then entered the university again in 1958. Ricci, a 5-foot, 6-and-a-half-inch welterweight at 156 pounds, won two letters in his sophomore and junior years during the 1958-59 and 1959-60 campaigns.

Ricci is certain to gain his fourth varsity boxing letter this month during graduation, thus completing the unusual feat of winning four varsity blocks in a single sport a full decade after the freshman eligibility rule was rescinded for most college sports.

Ricci may be the last of a vanishing group of athletes to win four letters in a single varsity sport at Cal.

Adding to Ricci's distinction is the California Collegiate Boxing Conference welterweight championship earned at the April conference tournament in Fresno.

Ricci also was the only University of California boxer to compete in the NCAA championships at Madison, Wisconsin, this year.

The National Association of Gymnastics Coaches and National Intercollegiate Boxing Coaches Association honored Don recently by selecting him to the All America Collegiate gymnastics and boxing teams in the 156-pound welterweight classification.

Don is a member of the Phi Sigma Kappa fraternity at Cal, and is the son of Mr. and Mrs. Tony Ricci, 160 Peoria street, Daly City.

Don was graduated from Our Lady of Perpetual Help Church School in Daly City and Riorden High in San Francisco, where he lettered as varsity right halfback in football.

Among the rewards Don has received this spring is a "C" Cup, given rarely to boxers, for athlete of the month of May selected by the university athletic director and coaches. Also received at this occasion was a big "C" blanket.

Tony Ricci is secretary-treasurer in the Beer Drivers and Salesmen Local 888, and is past police commissioner.

## Gazzano Takes Top Honors In Golf Tourney

Lou Gazzano, 49, assistant manager of the Westlake Branch of the Bank of America, won the hole-in-one contest at last week's Golden Jubilee Open at Lake Merced Golf Club by cupping out on his first shot at the special 75-yard hole.

It was a repeat of his last year's performance when he aced out in the contest at the Chamber of Commerce sponsored tourney.

Gazzano, one-time caddy who has played golf since he was 14 years old, also tied the day's low medal score with an even par 72 round.

He aced the 75-yard hole with a nine iron for this third hole-in-one since taking up the game 35 years ago. He shoots to a five handicap and has won the California State Tournament for Bank of America employees five times since 1929.

The event, which included an awards dinner at the clubhouse, drew 141 golfers, including some of the top amateurs in the Bay Area.

Bob Silvestri, three-time San Francisco City Champion, made his playing debut as a professional, and tied Less Lesser for low pro honors with a par 72.

Best net scores in the tournament were:

Class A—Nelson Cullenward, 69; George Gnau, 70; Art Linhares, 70; Bill Kennedy, 70.

Class B—Julio Bennetti, 72; Bill Moskovitch, 72; Joe Chilleni, 72; Don DiGirollmo, 74; Dave Blum, 74.

Class C—Joe Vago, 72½; Paul Parrott, 73; Tony Sidich, 74; Larry Olsen, 74½.

Class D—Joe Verducci, 65; Paul Pirakowski, 69; Joe Bracco, 74; George McKeon, 74; Rene DuVal, 75.

## Toto's Midgets Rack 'Lady Of Mercy,' 11-4

Southpaw pitcher Mike Carper and outfielder Jack Streeter led Toto's Midgets to an 11-4 victory over the Our Lady of Mercy Cubs in a Midget League baseball game played at Colma School recently. They gathered 4 hits apiece to drive in 7 runs.

Carper was supreme in his first starting assignment, holding the Cubs to 5 hits, while he walked 4 and struck out 5 men. Frank Nappi gathered 2 hits to bring the Midgets' total to 10.

The Midgets took the lead in the 1st inning as Steve Willey walked, Gary Ciardella was safe on an error and Streeter singled, scoring Willey. A bad throw from center field resulted in an error that allowed Carper to score on his double, bring in Ciardella and Streeter, giving the Midgets a 4-0 lead, which they never relinquished.

Toto's Midgets are sponsored by Toto's Italian Restaurant and Pizzeria, 1913 Junipero Serra, Daly City and are coached by John Streeter, Don Fuller and Carl Grosseman, of Daly City.

## Texaco, Yankees, Sunset Take Rec League Leads

In the Jefferson Division of the Midget League, Larry Landress of the BYA Bullets qualified for hero of the week by tossing a one hitter against Holy Angels Colts as his team defeated the Colts 17 to 5.

Parkmerced downed the Misracks Cardinals 10 to 8 in a close game, with eight hits by Parkmerced and seven for the Cards. The BYA Tigers edged out Visitation, 6-5. The big bats of "Cat" Farrell, Lonnie Alfano, Nick Kosturos and Matty Russo did the damage. Bill Curran starred at the plate as Hughes Texaco dropped the OLM Cards, 6-2. Curran hit four for four and drove in three runs.

In the Westmoor Division, the league-leading PAL Yandkees defeated OLPH, 5-1. Ghiladucci's triple was a big help in the yankee victory. Totos Midgets wipped the OLM Cubs, 11-4. Streeter and Carper hit 4 for 4 and Nappi 3 for 3 at the plate for Totos.

E. Williams of the BYA Blazers gave up only one hit as his team downed the Holy Angels Lions, 5-1. Coach Contreras called it a real team victory.

Junior play came forth with a big surprise this week as the highly rated Daly City Drugs were downed by New Pisa, 4-3. The New Pisa boys turned three hits into 4 runs. Daly City Drugs could only push in three runs out of 4 hits.

New Pisa added two more wins to their credit. They defeated the BYA Falcons, 8-4. They took one by forfit from Visitation Jrs. Daly City Drugs took revenge for their defeat out on D&S Lumber by beating them, 3-1. This must have made N. Kernick of D&S Lumber mad. He turned a big bat loose on the happless BYA Falcons. Kernick hit 3 for 4 with one a homer with 2 aboard. Sills of D&S allowed only one hit, D&S defeating the Falcons, 9-0.

Parkmerced tied with Lagmarsino, 3-3, and the game will be replayed. Parkmerced then went on to down Tower Market, 7-6; the error column was the difference. Parkmerced racked up another one at the expense of BYA Art Colvin, when Eddie Portnoy hurled a two hitter for a 13-1 win.

So. Sunset bolstered up it's win column by handing Art Colvin BYA a 16-4 drubbing.

Misracks had a good week as they downed a strong D&S Lumber team, 4-3 and then took the measure of Lagomarsino, 7-1. The pitching of Frank Summons and reliefer Nick Budea seem to be helping Misracks become one of the league's toughies.

Visitation edged out a hard fighting OLPH team, 5-2. OLPH led the ball game for most of the way but the breaks went against them in the last inning. The OLM Gaels did in Lagomarsino Realty, 8-2, for their first win in league play.

## It's SPARE TIME at Westlake Bowl

By JIM GREALISH

Father Ed and daughter Jerri Morris led the field in the opening week-end of the Family Doubles Tournament now in progress. With Jerri outscoring dad in one of the games, they bowled a 1,218 total to lead all eight divisions.

Ed and Steve Hargrove were the early leaders in the Father and Son Division, while Mildred and Harold Garrett outscored all the mothers and sons. By popular demand, new divisions have been added: husband and wife, parent and son or daughter over 18 years of age (seniors), and brother and sister. The tournament will run for six weeks.

"Cabaret Night," complete with song sheets, will be the theme of the YWCA's final social event of the season June 10 at the Westlake Bowl. With music by Walt Tolleson's Combo, there will be dancing following cocktails and dinner. Reservations may be made by calling PL 6-7370.

Bob Cowan won the rolloff for the 200 Bowler of the Junior Leagues, defeating Jim Fisher by one pin. John Zamzow placed third.

With the Men's League champion now determined, the ladies are competing in the qualifying round for the Ladies' League champion. Bowling five games in the qualifying round and five games in the semi-final round, the top eight girls will then compete in a Peterson Point final rolloff. Qualifying will continue for two weeks.

A 600 series was quite common at Westlake as the Brunswick Travel League came to town. Led by Bob Johnson's 669 total on games of 210-213-246, a total of six bowlers went over the 600 mark, including Bob Stout's stepladder of 205-206-207.

Saturday was trophy presentation day for the juniors, as over 200 junior bowlers and their parents were on hand for the morning and afternoon sessions. An added feature was a sports film and a navy film, "Countdown for Polaris."

Anita Del Campo and Sis Draper kept the prize money in the family in the Powder Puff Derby as the two sisters placed first and second with scores of 608 and 607. Doris Arnott took third place with 597 while Marie Bacigalupi won the high game prize with 197.

The Morning Glory League provided plenty of excitement as Barbara Hicks and Ines Ingles both converted the very difficult 6-7-10 split, while Ruth Rogers had 181 for high game.

BIGGEST MAY SINCE THE MODEL "A"...

THE MONTH OF MAY WAS THE BIGGEST FOR FORD CAR SALES IN 32 YEARS--SINCE THE HEYDAY OF THE HOT MODEL "A" IN 1929.

MORE THAN 143,000 FORD CARS WERE SOLD.

THIS MEANS THAT EVERY SIX SECONDS OF EVERY EIGHT-HOUR DAY, SOMEONE BOUGHT ANOTHER FORD, FALCON, THUNDERBIRD, OR FORD WAGON.

WHY?

PERHAPS THOSE 143,000 AMERICANS FOUND OUT SOMETHING YOU SHOULD KNOW. THEY DID ALL THE SHOPPING, DEALER BY DEALER; THEY MADE ALL THE COMPARISONS, CAR BY CAR. BUT THEY BOUGHT FORDS!

WHY?

SOONER OR LATER YOU'LL GET A NEW CAR. WHEN YOU DO, TRY YOUR FORD DEALER FIRST--HE WILL GIVE YOU AN ABSOLUTE YARDSTICK OF VALUE IN EVERY PRICE RANGE FROM A TUDOR FALCON TO A THUNDERBIRD CONVERTIBLE.

HERE'S WHAT TO LOOK FOR. IN THE GALAXIE PRICE RANGE, DON'T SETTLE FOR LESS THAN A CAR THAT'S BEAUTIFULLY BUILT TO TAKE CARE OF ITSELF...THAT GOES 30,000 MILES BETWEEN CHASSIS LUBRICATIONS...4,000 MILES BETWEEN OIL CHANGES... WHOSE BRAKES ADJUST THEMSELVES AUTOMATICALLY...WHOSE MUFFLER IS BUILT TO LAST THREE TIMES AS LONG AS ORDINARY ONES...WHOSE BODY IS SPECIALLY TREATED TO RESIST RUST AND CORROSION...WHOSE FINISH NEVER NEEDS WAXING.

IF YOU WANT RECORD ECONOMY LOOK TO THE FALCON...THIS IS THE ABSOLUTE RUN-AWAY BEST SELLER OF ALL COMPACT CARS... WITH THE GAS MILEAGE RECORD OF 32.6 MILES PER GALLON, PROVEN BY AN EXPERT DRIVER IN A FALCON WITH STANDARD SHIFT, UNDER THE CROSS-COUNTRY TEST CONDITIONS OF THIS YEAR'S MOBILGAS ECONOMY RUN.

OR COMBINE ECONOMY WITH A TOUCH OF THE THUNDERBIRD, IN THE ELEGANT NEW FALCON FUTURA...BUCKET SEATS AND ALL.

TAKE A LOOK AT THE TWELVE FORD WAGONS, EVERY ONE IS DESIGNED AND BUILT TO GIVE YOU MORE SOLID ROOM-PER-DOLLAR, POWER-PER-DOLLAR OR STYLE-PER-DOLLAR VALUE THAN OTHER WAGONS. SEE THEM ALL--FROM THE CRISP SMARTNESS OF THE FALCON WAGON, ALL THE WAY UP TO THE INIMITABLE FORD COUNTRY SQUIRE.

FOR PURE PLEASURE, SEE THE SENSATIONAL NEW THUNDERBIRD FOR 1961, UNIQUE IN ALL THE WORLD--A CAR THAT BECOMES MORE DESIRABLE EACH MONTH AS THE IMITATIONS COME OUT, AS OTHER CARS COPY ITS FAMOUS ROOFLINE, ITS FOUR-SEAT INTERIOR, ITS CONSOLE--YET MISS THE SECRET OF THE THUNDERBIRD SPIRIT.

THE THING THAT SELLS FORDS IS SIMPLY THE PRODUCT--IT STARTS WHEN YOU TAKE A CLOSE LOOK AT FEATURES OTHER CARS ARE ONLY DREAMING ABOUT, IT GETS CONVINCING WHEN YOU SEE AND FEEL THE HONEST QUALITY OF ITS CRAFTSMANSHIP--AND IT'S ALL OVER WHEN YOU LEARN THE PRICE.

THOSE THOUSANDS OF AMERICANS WHO BOUGHT A GLITTERING NEW FORD EVERY SIX SECONDS IN MAY REALLY DID KNOW SOMETHING YOU SHOULD KNOW--THAT NOW IS THE TIME TO STOP IN, SWAP, AND SAVE PLENTY AT YOUR FORD DEALER'S SWAPPING BEE.
